

XeneX SOCaaS

With over 12 years of experience and focus on Security Operations Center as a Service (SOCaaS), XeneX delivers a unique cybersecurity solution and unparalleled 7/24/365 SOC experience.

XeneX's software development team continues to extend the capabilities of XeneX platform. A leading industry platform, XeneX integrates several cybersecurity tools to achieve a single pane of glass of cybersecurity for the enterprise.

XeneX security analysts receive extensive training on the XeneX platform and must complete certification before joining the SOC team.

Not All SOC Are the Same

With a completely agnostic and comprehensive platform, XeneX collects telemetry from virtually any source of security information, including proprietary systems. More collected telemetry working with the XeneX cross-correlation engine (XDR) means better threat analysis and detection. XeneX SOC finds “the needle in the haystack” in real-time by eliminating noise, getting to a few critical incidents from millions of events so XeneX security analysts can focus on what matters.

A highly scalable multi-tenant platform designed for the channel allows every stakeholder in the partnership structure as well as end-user customers to have access to their own dashboards and reports.

One of XeneX's key differentiators is its delivery capabilities. XeneX SOC delivery framework is a mature and proven approach to SOC incident management, reporting and escalation. XeneX delivers the right information to the right people at the right time.

XENEX
SOC - A S - A - SERVICE

People, Process,
Technology.

People

At the heart of SOCaaS are our valued employees. XeneX SOC security analysts are highly experienced and subject matter experts in cybersecurity. Combining years of experience in cybersecurity with thorough knowledge of the XeneX's state-of-the-art technology platform, XeneX's security analysts threat analysis and detection capabilities are beyond industry standards. Following the XeneX's service delivery framework, our team helps our customers succeed in defending against hackers 7/24/365.

Technology

**Comprehensive, Unique, Capable.
Not just logs. Integrated non-log telemetry.**

- Exclusive AI "Counter Measure" LAN, Wireless and IoT
- Built-in cross-correlation engine, any telemetry
- Built-in SOAR
- Autonomous Response
- Automated Security Assessments
- Compliance Mapping MITRE, NIST, PCI, HIPAA, TSC, GDPR
- Comprehensive Azure, AWS, Google Cloud Coverage
- Comprehensive Office 365 Coverage
- Container Security
- Enterprise Risk Meter
- Hacker Diversionary System
- Dark Web Monitoring
- Aggregated Antivirus Products
- SIEM – Any Source, Anywhere
- Log Management – Intelligent processing Engine
- Vulnerability Scan
- PEN Test
- Asset Discovery & Inventory
- NIDS, HIDS
- Real-time Protocol Analysis, NetFlow, Packet Capture
- Reports Library & Custom Reports
- Comprehensive Connectors Library
- Configurable Policies & Rules
- Configurable Retention & Archiving
- Configurable Dashboards
- And more...

Process

An efficient SOC requires well-defined and optimized processes and technology helps automate these processes. XeneX achieves SOC efficiency by optimizing the relationships between people, processes, and technology. Utilizing our technology platform, XeneX processes have been developed and matured over the years. Built-in processes help reduce the false positives and bring focus to real actionable intelligence. XeneX security analysts use these processes for predictable results and communication with the XeneX team and our customers.

Differentiators

- 12 Years of Experience & Focus in SOCaaS
- Excellence in Service Delivery 7/24/365
- Unique & Comprehensive Technology Platform. Not just a log processor. XeneX IP. Release 10
- Unique/Exclusive Technology Capabilities
- Mature & Well-Defined Processes
- One Pane of Glass of Enterprise Cybersecurity
- Expert and Certified Security Analysts
- Affordable and High ROI, Low TCO
- Modular & Configurable for Each Customer
- Designed for Distribution & Partners
- Published API for Integration with Any Source
- Unlimited Scalability

Support

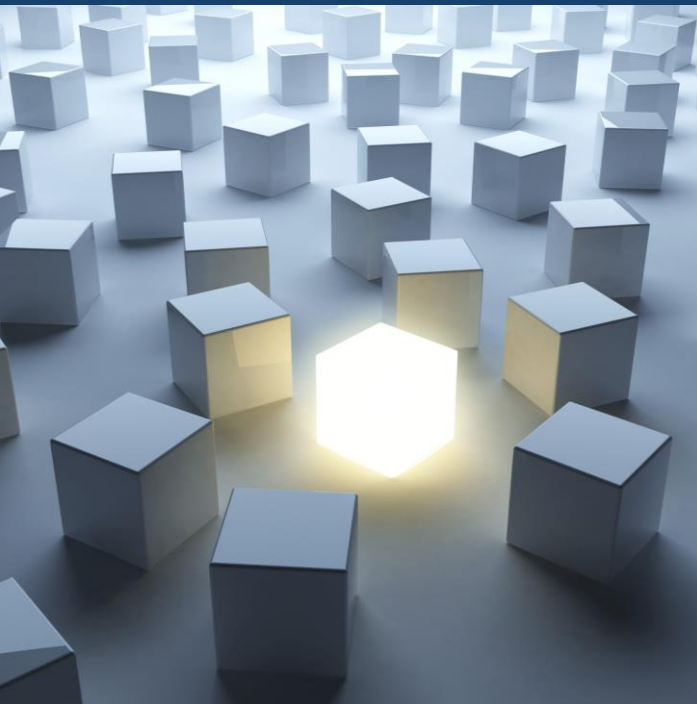

Our team of experts are here to help you with Pre-Sales and Post-Sales Support. Let's grow our businesses together.

Comprehensive Sales Support:

- Brochures & Data Sheets
- White Papers
- Demos
- POCs
- Battle Cards
- Technology White Boarding
- Overcoming Objections
- Price Negotiations
- And More...

Pricing

- Simple/Predictable Pricing Model
- Modular Pricing (Pay for what you need)
- High Margin for Partners
- No Bandwidth or Traffic Pricing
- Per Node Pricing
- No Price Increases During Subscription
- Volume Discounts Available
- Multi-year Discounts Available

Our Vision

Continuously invest in technology, people and process improvements to deliver the most comprehensive cybersecurity technology platform and world-class white glove service for incident management. To be the leading SOCaaS, protecting our partners and customers, and helping them achieve their cybersecurity goals.
