

CYBER ASSET MANAGEMENT PLATFORM

Know every device. Eliminate exposure.™

ThreatAware connects to your existing tools to give you a single, accurate view of every device, and validates that your security controls are installed, operational and effective. No agents. No blind spots.

ThreatAware Dashboard

How ThreatAware works

Connect

Integrate your existing security stack through read-only API connections in under an hour. Nothing to deploy on the endpoint.

Discover

Reveal every device with no duplicates and no blind spots, including hidden stealth devices that other tools miss.

Protect

Validate that every control is installed, operational and effective, then automate remediation across the estate.

Sainsbury's

"We have over 50,000 devices made up of desktops, laptops, servers and virtual machines. The biggest win from using ThreatAware is actually having confidence in all the assets we have and what security we have on them."

Douglas Weekes, CISO at Sainsbury's

WHY THREATAWARE IS DIFFERENT

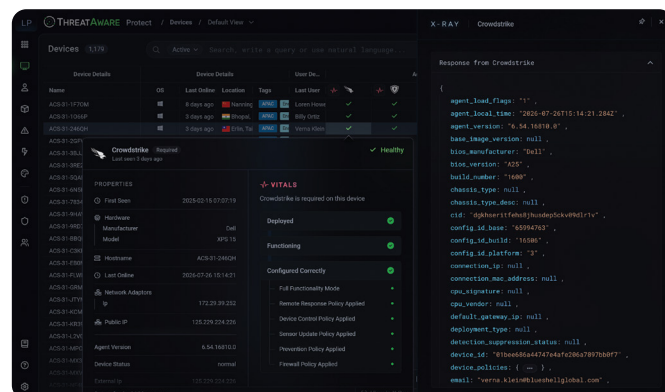

Unmatched accuracy, powered by patented **Timeline Matching**

ThreatAware builds a unique behavioral fingerprint for every device, so it identifies each one correctly, uncovers hidden stealth devices, and eliminates duplicates, even when your tools disagree.

Vitals / control validation

X-Ray / source-verified evidence

KEY CAPABILITIES

One platform to **see, validate and secure every device**

See everything, miss nothing
Every device, every installed application, no duplicates. Patented Timeline Matching gives you a single source of truth.

Fix gaps before they're exploited
Instantly detect missing or broken controls such as EDR, MFA or encryption, and confirm each one is installed, operational and effective.

Automate the manual work
Replace repetitive tasks with workflows, alerts and automated reporting, so your team focuses on action, not admin.

Streamline asset management
Tag and organize assets by risk, compliance or business unit with a fully customizable visual editor.

Accelerate the investigation
Get to the root cause faster with powerful search and deep device-level insight using the unique X-Ray view.

Stay audit-ready, always
Maintain compliance with customizable dashboards, automated reports and complete visibility across your estate.
